

Where to deliver the presentation

This presentation is great for:

- Providing a concise, simple information source to anyone in your community or government on FireSmart and why it works.
- Community or Band meetings where you are sharing information with residents or members.
- Community outreach with the public completed by Fire depts or public safety officials
- Presentations to Chief, Council, and membership/residents
- Presentations to high-school aged kids in schools.

Making it relevant to your community

This presentation provides engaging graphics and proposed speaking notes for the presenter to use.

It also provides numerous examples from other parts of the country to explain how FireSmart works.

Do not be afraid to customize the presentation for your community where it makes sense if you wish!

Some ideas on how to do that:

- Use your [Community Wildfire Protection Plan](#) and consider parts of your community which may be higher risk. Mention these areas in your presentation to encourage residents to take action.
- If you have them, use local or personal examples from yourself or others to educate people on how taking steps to reduce wildfire risk

Questions?
